

ENVIRONMENTAL POLICY

At Blackfrog Technologies, we are committed to protecting the environment by implementing and continually improving our Environment Management System. We strive to deliver products and services that meet or exceed regulatory and customer expectations by:

- Adhering to applicable standards and relevant compliance requirements.
- Setting environment objectives and monitoring performance.
- Conserving water resources through efficient usage measures.
- Practicing responsible waste management to minimize waste, promote recycling, and ensure proper disposal.
- Preventing pollution by identifying and controlling environmental risks associated with our operations.
