Emvólio

A portable biomedical refrigerator

Dimension	30cmx20cmx30cm
Weight	3.9kg
Capacity	1.5 litre payload
Operating temperature	-20°C to 45°C
Battery	Li-ion upto 200Wh
Operating humidity	upto 95%
Storage temperature	-30°C to 65°C

Upto 12hrs of cooling

GPS tracking

Corrosion Resistant Material

Vaccum sealed insulation

1 years warranty

Audio and visual alarms for temperature excursions

Designed for IP65 waterproofing

0.1°C Sensor and control accuracy

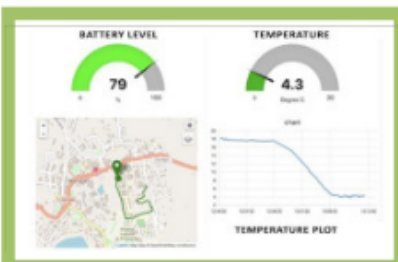

Shoulder strap to carry

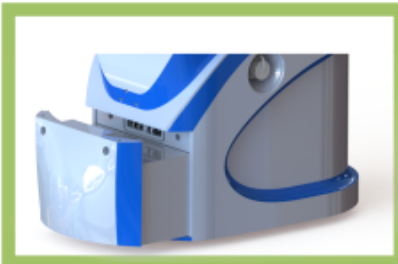

User interface to set the temperature

Vial holder compatible with all shapes and sizes

Web Interface for remote monitoring of temperature and location

Hot swappable battery pack for extending life and Airplane transport

Quick access to the insulated chamber
